

ADD25F and ADD26F

Heavy Duty Monitor Mounts

ADD22H replaces **ADD23H**

Measurements:

6" top of T-bolt to bottom of base.

Base is 2" x 2.3" with 1" between screw holes.

At handle, body barrel is 3.9" tall x 2.2" wide (incl. handle) x .98" (slit sides).

Handle is 1.6 long x .7 width at center.

ADD25F

Our Heavy Duty metal **ADD22H** replaces the silver, **ADD23H** mount and uses the same hole pattern. The new black mount is easier to tighten and loosen and very affordable.

All mounts will fit every Verity monitor previously used with the ADD23H mount.

The **ADD26F** is our new, heavy duty mount with the Hino trucks in mind.

(Caps are included for the beveled screw holes.)

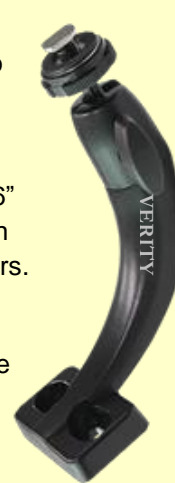

Measurements:

6" top of T-bolt to bottom of base (mounted flush).

Base is 2.6" x 1.6" with 1.3" between screw hole centers.

At handle, body barrel is 1.9" wide (incl. handle) x 1.25" (slit sides).

Handle is 1.4" long x .5" width at center x .5" deep.
